

Project Chao

/'keɪəʊ/

Meaning is better when shared

NAM Nguyen

Why Chao?

Why traditional solutions don't work so well?

- LANGUAGE is every where
- So is TRANSLATION
- LANGUAGE evolves
- DICTIONARY is obsolete → CLOUD

Vietnamese	↔	Japanese
Nhà vệ sinh ở đâu		×
どこのトイレ		➔

MEANING MATTERS!!

How Chao?

How Chao solves the problem?

- If you are serious about **Meaning**, you fix it.
- Interact with **MEANING**, easily and happily
 - Sharing / evaluating / improving
- The local knows better than the Cloud

What Chao?

What *Chao* be?

Firestore

Chao&2020,人,言語?

Who will use Chao?

- Those who want to know the **Meaning**
 - Including tourisms, language learners...
- Those who want to improve the **Meaning**
 - Including researchers, local people
- Those who want to share the **Meaning**
 - Maybe including **you**
- Those who want to touch the **Meaning**
 - Me, of course

Chao&Future

- Is Chao good? – NOT YET
 - Feature: Bookmark, default sentences
 - Feature: Share by QR Code to ask for more
 - Improvement: UI/UX
 - Performance: Cloud and Ground
- After Hackathon?
 - I keep working on it
 - You are welcome to contribute
- Source, license?
 - GNU 3.0 to keep things good
 - Github ready: <https://github.com/eneim/Project-Chao>
